

## AUTOMATIC TRANSMISSION FLUID

**For use in vehicles previously serviceable by DEXRON® III/MERCON® brands  
 Suitable where Ford ESP-M2C138CJ or ESP-M2C166H is specified  
 Meets Requirements for Allison C-4**

### PRODUCT DESCRIPTION

FormulaShell® Automatic Transmission Fluid is a premium quality automatic transmission fluid for use in both passenger cars and light trucks requiring a fluid that was previously serviceable by the General Motors DEXRON® III or Ford MERCON® specifications.

FormulaShell® Automatic Transmission Fluid is recommended for power steering units specifying either type of fluid, and can be used in Allison Powershift transmissions or other torque converters requiring an Allison C-3 or C-4 fluid.

FormulaShell® Automatic Transmission Fluid is a high viscosity index product and offers good oxidation stability, corrosion prevention, foam resistance, and controlled frictional properties. This fluid also provides good seal compatibility, wear protection, and smoother shifting.
